- **July 2021 Public Advisory Board meeting summary**
  - Following the Public Advisory Board review of the progress and impact made in the first quinquennium (QQ1) of funding for HDR UK, and blue skies ideas and vision for the second quinquennium (QQ2), the Public Advisory Board and a select few additional public contributors used this meeting to outline extensive feedback and input to help develop the proposals. This important stage was vital as we moved forward into the next stage of the quinquennium review (QQR) process.
  - The summary of the Public Advisory Board input will be made public when all the QQ2 documentation is also made public.
